SIZING TIPS + TRICKS

Girth is the most important measurement!

SIZING SUGGESTIONS + HELPFUL HINTS

- Measure your dancer while they are wearing a leotard for the most accurate measurements.
- When trying to decide which sizes to order, girth should be the most important measurement.
- XLC and XXLC sizes are made to fit a larger child, not a petite adult.

GIRTH

Measure from the center of one shoulder, down through crotch, and back up to same shoulder

BUST

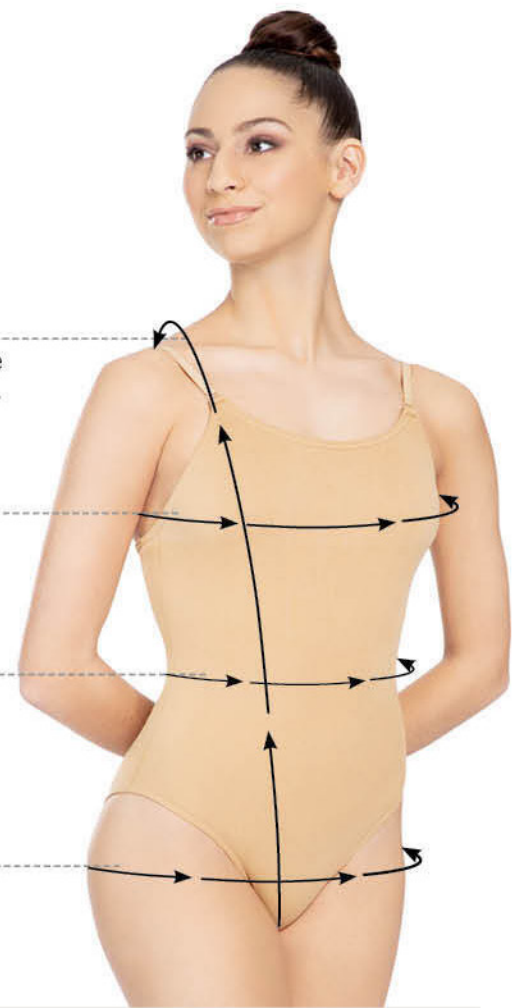

Measure around fullest part of the bust

WAIST

Measure around natural waist

HIPS

Measure around widest part of the hips

Artwork Submission Tips

Great merch starts with great artwork! For the best print quality and smoothest production process, follow these guidelines when submitting your files.

Small lines in your artwork may be thickened for print

VECTOR FILES ARE BEST

Whenever possible, submit artwork as a vectored **.AI**, **.EPS**, or **.PDF**.

SENDING A RASTER IMAGE? GO HIGH-RES.

PNG, JPG, or PSD files should be submitted at the highest resolution available, ideally 300 DPI at the intended print size. Small, blurry, pixelated, or screenshot images may not reproduce clearly when printed.

FONTS

If your artwork includes special fonts, please convert text to outlines or include the font files. Original logo files are always better than logos pulled from a website, social media post, or screenshot.

NOT SURE WHAT YOU HAVE?

Send us the best-quality version available! Our team can review your artwork and let you know if anything else is needed before production.

Please send additional logo files and questions to **StudioMerch@revolutiondance.com**

A Note about AI Generated Artwork

AI-generated artwork can be a great starting point, but these files are often not production-ready and may require additional design work to recreate, clean up, or properly format for printing.

Depending on the complexity of the artwork, additional artwork fees may apply. We'll review your file and let you know if additional work is needed before moving forward.
